

# PROJECT PROFILE - SPECIALTY COATING

▲ **PROJECT TYPE: SPECIALTY COATING**

▲ **NAME & LOCATION:**  
Amgen Helix Project R & D Facility, Seattle, Washington

▲ **OWNER:**  
Amgen, Inc

▲ **PROJECT LEADER & TEAM:**  
Project Leader: Walt Handloser

▲ **PROJECT DESCRIPTION:**  
The Helix project was performed on schedule, within budget, and without a single accident or injury. The Helix project involved a few more architectural elements than usual, although the speciality coatings team proved it could meet both the aesthetic and workmanship goals of Amgen. Amgen (Applied Molecular Genetics) is headquartered in Southern California, and is the world's largest biotechnology company. The Seattle plant will be one of the company's major drug discovery sites.
