

HOW CAN YOU KEEP A GENERAL CONTRACTOR AND OWNER HAPPY ON A MULTIBILLION-DOLLAR FAST TRACK DESIGN BUILD PROJECT?

JUST ASK WALT.

No specialty coatings project is too complex for Walt and F.D. Thomas.

Even if you're building D1D, the largest 300mm Fab manufacturing plant in the world, in the shortest amount of time in history,

you can count on Walt Handloser's 25 years of experience to get the job done fast. That's why we're not surprised when we hear, "We have a large, complex project. Give me a price and we want Walt."

We're used to our customers knowing our people by name. For example, when a client needs twice the knowledge and a double set of hands, they ask for the team of Don Schuerkamp and Mike Parnell. When people

need a meticulous master of plural component spray work, they want Jack Jackson. And project Manager Ray Kinney, who has been with us for 25

years, is reaching new heights as our bridge expert.

With over 200 people in the field, we're structured to handle tight turnaround times for the most complex projects in all types of industries, including pulp/paper, power, semiconductor, chemical processing, public works and pharmaceutical.

So give us a call at 541-664-3010. We've got the best team— for your job.

Great People, Great Work, Extraordinary Company
